Summary of Significant Changes to the NIH GPS for March 2015 Version

(Guide Notices Issued Before March 30, 2015)

The revised NIH Grants Policy Statement (NIHGPS, rev. 3/31/2015) represents an update to the 10/01/2013 version and is applicable to all NIH grants and cooperative agreements beginning on or after December 26, 2014 and awards that received supplemental funding on or after December 26, 2014. This version incorporates new and modified requirements, clarifies certain policies, and implements changes in statutes, regulations, and policies that have been implemented through appropriate legal and/or policy processes since the previous version of the NIHGPS dated 10/01/2013. The 3/31/2015 revision supersedes, in its entirety, the NIH Grants Policy Statement (10/01/2013) and the NIH Interim General Grant Conditions (2/5/2015) as a standard term and condition of the award.

Notable Policy Changes: Implements new policies and clarification of existing policies announced in the NIH Guide since October 2013, and listed at Grants Policy & Guidance.

Regulatory and OMB Circular Citations: References to Department of Health and Human Services' (HHS) implementing administrative regulations have been changed from 45 CFR Parts 74 and 92 to 45 CFR Part 75 based on the Office of Management and Budget's (OMB) consolidation of several circulars under *the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards – Final Rule* ("Uniform Guidance") have been made through the NIH GPS. Likewise, references to former OMB grants circulars have be updated to cite the appropriate subpart of 2 CFR 200. (See NOT-OD-15-046.)
